Note: Many of the initiatives not listed as priorities by the Steering Team are closely related to, if not inseparable from, the "priority initiatives". As a result, implementation partners (many working independently of HCRPC) will likely set priorities among the 30 initiatives that differ from the Steering Team recommendations listed above. The priorities of Implementation Partners (in civic, public, and private sectors) will also be affected by their mission, authority, responsibility, funding, and current interests. This table only lists implementation actions where HCRPC is a partner; many other implementation actions have been initiated by civic, private, and public sector organizations without HCRPC involvement.
